Background: The city's decision to purchase the above equipment is based on the following:

- The Public Work's Forestry Department's work includes the removal of heavy debris.
- This vehicle will replace #186, a 2000 New Holland LW130TC with 7,399 hours of use.
 - This unit will be traded in for an approximate value of \$20,000.
- The above replacement has been reviewed and approved by the vehicle committee. The vehicle committee has considered down-sizing, right-sizing, fuel footprints and operational efficiency in reviewing these purchases.
- Per expected life cycle planning, this unit should have been replaced in 2012. The vehicle committee approved the delays due to other vehicles having a higher priority for replacement.
