Design and Build: Installation of Fiber Optic Cable

Request for Proposal Amendment #1

The following changes / clarifications / additions have been added to the Invitation to Bid project specifications and plans:

1. **QUESTION:** Will it just be for small installation of cabling services or will there be device troubleshooting required as well (i.e. Will we be responsible for the fixing of any electronics at the ends of your cables (telephones or computers) or are you just looking for installation services of infrastructure cabling?)?

ANSWER: We are just requesting cabling of infrastructure. We are not requiring repairs to phones or computers.
