During some phases of work, lane closures will be necessary, but the City will keep a lane of traffic open in each direction whenever possible. Temporary detours may be necessary at some points.

The City will provide access to businesses with temporary ramps while sidewalks are under

construction.

Traffic at the intersection of Main and Willow will be controlled by a four-way stop for approximately six months while the traffic signals are upgraded.

Weather delays and unforeseen utility conflicts may impact the schedule, and the City will provide updated information as work progresses. Thank you in advance for your cooperation and patience during construction.

Main Street will receive the same types of upgrades as the earlier phases of improvements, including benches, wider sidewalks, new trees and landscaping.
