Portion of Wesley Changing to Two-Way Traffic during Front Street Reconstruction

Starting the week of October 10, crews contracted by the City plan to begin working to reconstruct Front Street from West Street to Gary Avenue. This project includes replacing sanitary sewer pipes, manholes and reconstructing the street.

To complete this work, crews will be closing Front Street between West Street and Gary. The detour route for Front Street traffic will temporarily make Wesley Street into a two-way traffic pattern between West Street and the Manchester/Wesley Street bridge over the railroad tracks. Eastbound traffic over the bridge

will be required to travel eastbound on Wesley Street instead of Front Street while this work is being completed. See the map of this detour.

The contractor will maintain local access for residents who live in the project area throughout this work. The City anticipates this work will take approximately 3 weeks to complete.

Throughout this project, on-street parking will not

be allowed on the block of Front Street between West Street and Gary Avenue. Drivers who use these paid parking spots should use some of the City's other daily fee parking options, such as in Lot 9. Daily fee parking options are listed on the City's website.

Thank you for your patience as we work to complete these important infrastructure improvements.

MESSAGE FROM THE MAYOR

Celebrate Our Business Community

Wheaton's business community is thriving, and we have much to celebrate: new businesses establishing themselves in Wheaton, existing businesses marking milestones, and longtime businesses serving as cornerstones of our community.

All areas of the City have welcomed new businesses in recent months, such as the home and women's boutique Meredith Jaye that opened its doors at 311 Town Square. This is one example of a local business finding the perfect opportunity in our community. Owner Kim Fuller started her first boutique in Wheaton in 2000. When the boutique outgrew its Wheaton location and larger options weren't available at the time, the business moved elsewhere. Fast forward to 2022: the Fuller family is excited to be back in Wheaton with Meredith Jaye, and we're excited to welcome them back.

This new shop happens to be right across from another Town Square business that chose to expand in Wheaton: 302

Mayor Sueess

South. Following the success of its community-focused 302 Wheaton restaurant (located at 302 W. Front Street), this thriving business continued investing in another part of our community by opening a second location, 302 South, in the center of Town Square.

Similarly, in the College Avenue corridor, the owners of the breakfast/lunch restaurant Hen House expanded through the addition of the new Molos Taverna (1072 College Avenue, adjacent to Hen House). This new offering features modern Greek food and drinks.

National franchises are seeking opportunities

in Wheaton, too, like the recently opened Culver's restaurant on Roosevelt Road. The City expects to see more redevelopment successes like this due to the recently adopted Roosevelt Road Corridor Plan, which will spur economic development best suited to the different sectors of Roosevelt Road.

In the downtown, the owners of the former Wheaton House Kitchen & Tap have transformed their restaurant and reopened as Yia Mas, "a taste of Greece," now open at the corner of Front Street and Hale (133 W. Front Street).

Besides restaurants and retail, service-based businesses are also investing in Wheaton, such as the new Geode Health at 311 S. County Farm Road, providing mental health services for our community.

Our community celebrates the milestones and accomplishments of our existing businesses, too, like The Moment On Main (122 N. Main St.), celebrating its first anniversary; My Half of the Sky (121 W. Wesley St.), celebrating its fifth anniversary; and Noah's Animal Hospital (414 S.

Main St.), celebrating its fifth anniversary.

And, here in Wheaton, we're fortunate to have businesses who've been a part of our community's story for more than 100 years, including: The Little Popcorn Store, since 1921 (111 ¼ Front St.); Carlson Paint, Glass and Art Stores Inc., since 1915 – which now includes Carlson Glass and Mirror (312 W. Front St.), and Carlson True Value Hardware (125 E. Front St.); Stones Jewelry, since 1911 (107 W. Front St.); and Wheaton Nurseries, since 1895 (626 E. Roosevelt Road).

Wherever you go in Wheaton, you'll see the signs of a successful business community: longtime community favorites, existing businesses investing in our community, and new businesses bringing more opportunities to shop, dine and do business locally, surrounded by a thriving residential community. To all of our businesses – new and old – that call Wheaton home, we appreciate and support you.

Leaf Collection Reminders for Fall

This fall, the City of Wheaton reminds you of the ways you can properly dispose of leaves. Place leaves in containers 35 gallons in size or smaller, or in biodegradable bags. Containers or bags must weigh less than 50 pounds when filled. Each container or bag requires an LRS yard waste sticker, available at City Hall and at many local grocery and

hardware stores. When you're cleaning up leaves, please be careful not to blow or rake them into the streets. Doing so can prevent storm sewers from functioning properly and can lead to flooding. If your house is located near a storm sewer catch basin, please help keep it clear by sweeping away leaves from the sewer grate. Also, please note that burning

leaves is not allowed. LRS collects yard waste, food scraps and organic materials on your garbage day through the second full week of December. An environmentally friendly alternative is to mulch them into your lawn or garden beds. Using a lawnmower with a mulching function can shred leaves for spreading into garden beds or finely shredded into lawns.
