July is National Extreme Heat Safety Month

Extrême heat is a period of high heat and humidity with temperatures above 90 degrees for at least two to three days. The Illinois Emergency Management Agency and Office of Homeland Security (IEMA-OHS) have some easy tips to keep you cool and safe this summer.

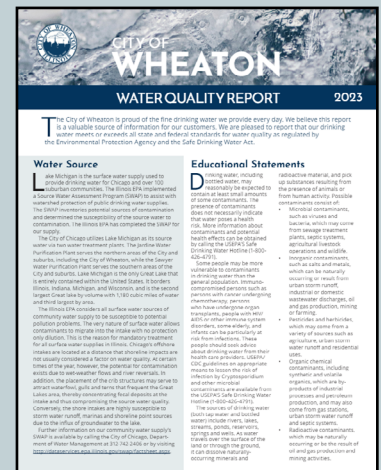

Extreme heat safety awareness tips include:

- About 40 percent of unwanted heat buildup in homes is through windows.
- Use awnings or curtains to deflect the sun.
- Wear light-colored, loose-fitting, and lightweight clothing.
- Avoid strenuous activity during midday.

- Hydrate with water, not caffeinated or alcoholic beverages.
- Never leave children or pets in a vehicle.
- Get trained in first aid to help when someone is suffering from heat illness.

If you need a place to cool off, the Wheaton Public Library (225 N. Cross St.) and Milton Township Offices (1492 N. Main St.) serve as cooling centers during extreme heat during their business hours. Please check on neighbors and individuals who may need assistance during this time, and take precautions to keep yourself and others safe. Heat emergency information is available on [the City's website](https://www.cityofwheaton.org/2023/07/01/heat-emergency/).
