If containers are not feasible, brush and tree trimmings must be placed in stacks no longer than 4 feet in length and 18 inches in diameter. Stacks do not need to be bundled with twine but must have a garbage/yard waste sticker attached.

## Get a Glimpse of 1960s Wheaton Community High School in New Video

Students attending Wheaton Community High School in the 1960s witnessed dramatic events taking place around them – including the Vietnam War, the Civil Rights Movement, and the space race. [In a new edition of the "Wheaton Remembers" video series](#), Wheaton Community High School alumni recall this significant period

in American history and what it was like to be a high school student in 1960s Wheaton.

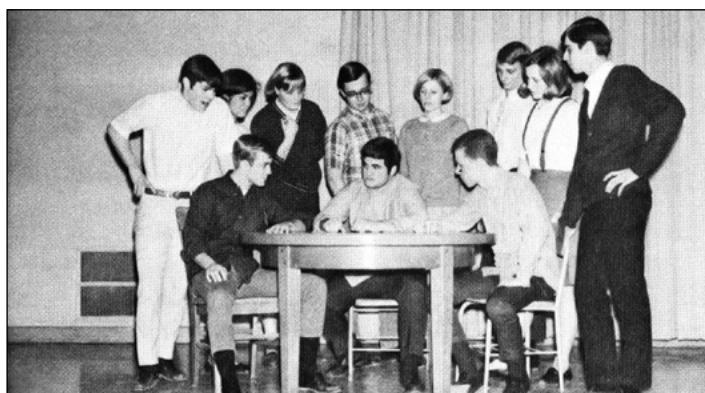

Former principal Chuck Baker sits down with Ross Truemper, John Stacey and Don Longacre to reflect on everything from Civil Rights in Wheaton to Friday night football games, overcrowding in the school, and the opening of a second high school. They

also share their recollections of classmates who became famous, including Bob Woodward, John Belushi and Jim Belushi.

Spring has officially arrived, which means severe weather may soon follow. A new video, ["Be Ready for Severe Weather"](#), answers many common weather questions, debunks myths about severe weather, and provides concrete tips you can act on today to keep yourself and your family safe this spring.

How will you know if

there is a tornado headed your way at night? (One easy tool can help.)

What is one thing you can do that will keep you 90 percent safer during a tornado?
