RECEIVED
CITY OF WHEATON

**Subject: Winter 2005 Building Inspection Program
Proposal**

Dear Mr. Redman:

We appreciate the City's confidence in selecting RJD Group to conduct building inspections. This letter summarizes our proposed scope of work and level of effort to conduct the building inspections in the winter of 2005 and spring of 2006.

The City has conducted an extensive amount of rehabilitation work on the public sector portion of the sanitary sewer system. However, the peak flow in the system is substantial enough to justify conducting a building inspection program to identify potential sources of infiltration/inflow (I/I) that enter the sanitary sewer system from the private sector. Building inspections are anticipated to start in November and to be performed through about mid March 2006. The building inspection work will be conducted on residential buildings in four regions of the City. The city provided a lot map of the areas that it wishes to be investigated. A summary of the lots by area is as follows:

1. 5D	(Briarcliff Knolls)	284
2. 5D	(Farnham)	74
3. 1C	(East of Cosleys)	74
4. 1J &1G	(SE of Geneva and President)	<u>245</u>
Total		716

Building inspection will include identifying sources of I/I from both inside and outside the buildings. We expect to provide a crew consisting two inspectors (for safety reasons and comfort level of the residents). Based on our experience, the goal for this project is to take what has proven to be a cost effective approach for identifying defects without using excessive labor to achieve a reasonable level of information, knowing that each area can vary. The basic scope of work is as follows:

1. Develop letters of introduction for Rjn Inspection crews to carry on City letterhead. We expect to use similar letters to the ones used in the past. The letter of introduction will be reviewed with City Staff and modified as deemed necessary.
2. Conduct internal inspection of homes within the proposed area utilizing a two (2) person inspection crew:
 - a. Inspectors will carry photo identification badges.
 - b. Inspections will generally be conducted on Monday through Friday from 9 am to 6 pm and Saturday from 10 am to 3 pm.
 - c. Up to three attempts will be made to gain entry and complete the inspections. A daily record of the number of inspections completed, attempted entries, and refused entries will be maintained on a master list. Completed inspection forms will be reviewed for completeness and recorded on a weekly production summary. Buildings on slabs which do not require any further inspection will normally be recorded as slab buildings during the first inspection pass.

Based on previous experience in Wheaton, we anticipate that once we've inspected about 20 homes in a unit subdivision, we may find that they were all constructed the same. If we do not find any I/I sources, we anticipate recommending that no further inspections be conducted in that unit subdivision. This will allow us to focus the budget on the areas that are more likely to produce significant findings. Our level of effort on the first pass reflects this strategy.

d. If after two passes we have been unsuccessful in entering buildings, the third attempt will involve arrange appointments. If occupants can not be contacted, do not respond, or refuse to allow entry, then no further attempts will be made. It is expected that some buildings (about 5 percent) will have refused entries.

We expect that the production rate may be lower than what we're accustomed to achieving in the summer months because of the harsher weather conditions and the holiday season. We also expect that there will be a larger percentage of appointments. Consideration has been made for these issues in the level of effort.

3. Following the third pass, the data recorded on the inspection forms will be entered into the database to be provided to the City as a deliverable.
4. A draft report will be prepared and submitted to the City for review and comment.
5. Comments will be incorporated in a final version of the report.

Invoicing will be monthly on a time and material basis with a maximum not to exceed limit of \$62,400. The level of effort/breakdown by task is provided on the enclosed table.

Please feel free to call if you have any questions.

Very Truly Yours,
